WORK EXPERIENCE

Intern Data Scientist at Deutsche Telekom, Bonn **Sep.2021 - Feb.2022**

- Analyzed Deutsche Telekom's B2B cloud product offerings to identify customer segments for developing a recommendation system.
- Developing Data Pipelines using PySpark to extract, transform and load B2B customer data, significantly reducing data access time for the team.
- Conducted ad-hoc analysis related to B2B Customers to identify upselling opportunities.

Research Intern at Chitkara University, India **Jan.2017 - Jul.2017**

- Conducted a comprehensive literature review on the synergy between cloud computing and big data analytics, contributing to the research paper "Cloud with Big Data Analytics: A Review".
- Applied data mining techniques (Linear Regression) using R, to a dataset of patient records to identify significant predictors of heart disease.

EDUCATION

M.Sc. In Data and Knowledge Engineering

Apr.2018 - Mar.2023

Otto von Guericke University, Magdeburg

- **Master Thesis:** Optimization of the search experience in search engines with Vector Databases and Transfer Learning.
-

PROJECTS

AI-Powered fact Verification Tool

- Build an end-to-end fact-checking web application using an LLM-powered claim extraction and verdict pipeline.
- Integrated Cerebras AI to identify atomic factual claims from raw text or URLs and generate evidence-backed verdicts.
- Orchestrated parallel web search queries per claim to retrieve authoritative sources in real time, reducing manual verification effort.

GithHub Repository Summarizer API

- Built a FastAPI service that ingests any public GitHUb URL and returns a structured LLM-generated summary of the project's purpose, tech stack, and architecture.
-

This document is a convenience translation of the German original. In case of discrepancy between the English and German versions, the German version shall prevail.

Mr. Ashish Soni, born August 12, 1992, was employed as an intern in Magenta Business, the agile digitalization tribe for the business customer unit at Telekom Deutschland, between September 1, 2021 and February 28, 2022.

Telekom Deutschland GmbH (TD GmbH), headquartered at Landgrabenweg 151, 53227 Bonn, Germany, is a wholly owned subsidiary of Deutsche Telekom AG (DTAG). The company combines all mobile communications, fixed-network, and online activities for consumers and business customers in Germany. It offers products and services for home and on the move from a single source.

Mr. Soni was employed in the Advanced Analytics team that supports sales with data-driven insights and also provides machine learning and artificial intelligence to the sales processes.

Mr. Soni assumed the following tasks during his internship:

1. Exploratory analysis of business customer data gathered from web scraping for customer selection and sales use.
2. Preparation of the ETL script for the use of the business customer data from the web scraping process.
3. Literary research and development of a prototype for the targeted marketing of cloud products via a recommender system that identifies customers who are more likely to purchase.

Mr. Soni was always interested in the work assigned to him as well as the work processes. He immediately and very successfully implemented the insights provided to him. Mr. Soni always completed his tasks very well and comprehensively thanks to his ability to quickly grasp new concepts. Even when dealing with simultaneous tasks, he always kept an overview and solved any problems that occurred quickly and effectively.

Mr. Soni always showed determination in completing his day-to-day work. He always completed the tasks assigned to him conscientiously, reliably, and effectively. Furthermore, he was adequately motivated at all times. The results he achieved were entirely in line with the requirements of his role.

Ashish Soni
Page 2 of 2

Mr. Soni consistently had a perspective that went beyond his own specialist area. His in-depth understanding of technical questions is particularly noteworthy, and over time made him a respected expert in this field.

Mr. Soni always completed the tasks assigned to him to our absolute satisfaction.

His personal conduct was likewise exemplary. Mr. Soni was highly valued by his superiors and colleagues as a hard-working, friendly member of staff.

The internship ended as agreed on February 28, 2022.

We thank Mr. Soni for his dedication at all times and the practical application of his excellent knowledge. As a result, we also benefited from this internship.

We wish Mr. Soni all the best and continued success.

Bonn, February 28, 2022

Ashish Soni

has successfully completed the online, non-credit Specialization

From Data to Insights with Google Cloud

This four-course accelerated online specialization teaches course participants how to derive insights through data analysis and visualization using the Google Cloud Platform. The courses feature interactive scenarios and hands-on labs where participants explore, mine, load, visualize, and extract insights from diverse Google BigQuery datasets. The courses cover data loading, querying, schema modeling, optimizing performance, query pricing, and data visualization.

Google Cloud Training

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
